

Data Management Software for Grantmakers › Comprehensive › Integrated › Customized

A fully customized solution built from the ground up incorporating all features and functions available in the other Pearl products. Written in Microsoft® Access, the resulting concise product is fully tailored to meet your needs today and can change and grow with your organization.

Never Type the Same Thing Twice

All Bromelkamp Company products are designed for easy and efficient use:

- › Improve record keeping and data management
- › Automate office operations and improve efficiency
- › Achieve better knowledge management with flexible and comprehensive reporting
- › Customize the design to match your operations, including reports and letters to match your process
- › Navigate easily to desired functions and data
- › Change or expand as your foundation grows
- › See only what you need to see with our concise design
- › Transfer data into familiar Microsoft® products like Word, Excel or Outlook for mail merge activities and ad hoc data analysis

We Are More than Just Software

When you purchase Pearl products, you'll notice the difference. As our client you will experience the following:

- › Superior Technical Support
- › Free Software Updates Forever
- › Periodic User Newsletters
- › No Annual License Fees
- › On-site Training
- › Continuous Innovation
